

# HELROM

## Trailer Rail

### The Helrom network is growing! New route Braunschweig – Vienna

Following our connections Düsseldorf – Vienna and Regensburg – Lébény (Hungary), the Helrom network continues to grow. This means that forwarders and carriers can also reduce CO<sub>2</sub> on this route and at the same time benefit from economic and social advantages.

#### 90% carbon reduction

Support your customers in the immediate decarbonization of transport logistics.

#### No investment required

Use intermodal transportation without additional investment in your existing fleet.

#### Optimal asset utilization

Maximize the use of your existing drivers and tractor units.

#### Service quality

Same quality as road transport – transit times under 24 hours, daily departures, punctuality.

#### Collaborative approach

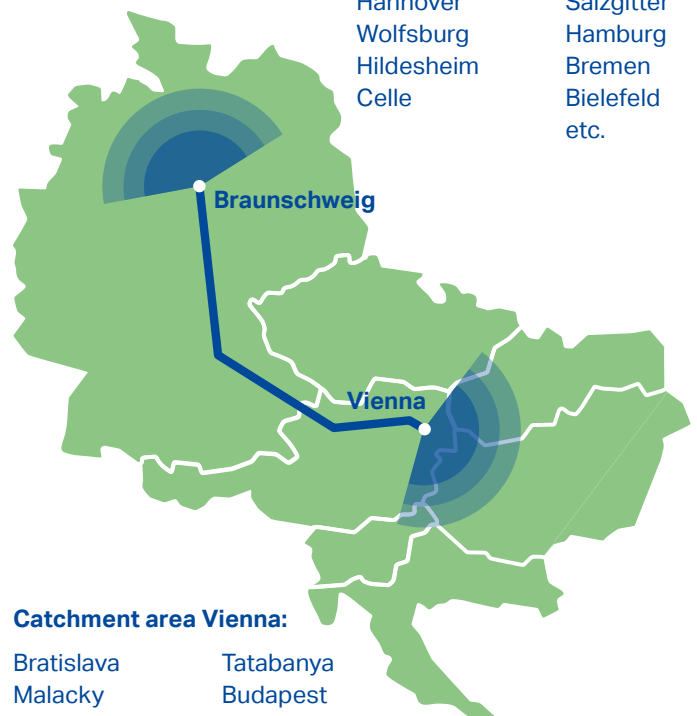

Together we deliver outstanding results for your customers.
